

## Join WorkOne's Employer Forums and Special Events for Insights of Human Resources Issues and Trends

### CALLING BUSINESS EXECUTIVES and MANAGERS!

Through Employer Forums and special events, WorkOne seeks to provide employers with current information about key issues and trends in hiring and workforce management. From the annual Economic Summit to Employer Forums, we gather knowledgeable experts and employer representatives to share new information, case studies, and best practices. These pace-setters cover topics such as:

- **Terminations.** What to do—and what *not to do*—in terminations.
- **Legal Compliance.** Complying with the spirit and legal requirements of the federal Americans with Disabilities Act, as well as other state and federal statutes.
- **HIPAA.** Meeting the terms of the Health Insurance Portability and Accountability Act of 1996 (HIPAA).
- **Immigration.** The latest data about U.S. immigration and nationality statutes, including documentation and employer responsibilities.
- **Employee Handbooks.** Developing and managing employee handbooks that set company policies *AND* comply with legal requirements.
